

## POLAR AIR TOOLS

# AIR TOOLS

*POLAR Air tools are designed to work comfortably and feature heavy duty components to resist everyday use.*

*POLAR offers a very wide range of air tools, impact sockets and accessories which combines power and durability.*

- Compact design – allows easy access to tight spaces.
- Twin hammer impact mechanisms – performing maximum power.
- Reduced vibration – shock absorption reduce the stress from vibration.
- Balanced design – for better user control.
- Low noise – for a comfortable working environment.
- Comfort grip – ergonomic grip, to take the strain out of repetitive use.
