

ROLLER CABINETS

POLAR Roller cabinets have been developed and built to exceed the highest standards. The construction of our tool storage units are performed without compromise, to ensure the strength and durability you need.

All our roller cabinets include the following standard features:

- Quick lock system.
- Centralized locking.
- Drawers with steel handles.
- Double wall construction.
- Reinforced bottom construction.
- 1.2 mm strong sheet steel casing.
- Worktop in chemical resistant hard PVC material.
- Oil-proof rubber mats in all drawers.
- Large oil-proof rubber casters.
